FIG. 10A and FIG. 10B are schematic diagrams of a device 10 in a first and second state, respectively. The device 10 includes a housing 32, a central core 38, and a plurality of flexible elements 36. In FIG. 10A, the flexible elements 36 are in a retracted state, exposing the central core 38. In FIG. 10B, the flexible elements 36 are in an extended state, covering the central core 38. The device 10 is shown in a cross-sectional view, with the housing 32 having a top wall 42 and a bottom wall 44. The central core 38 is positioned between the top wall 42 and the bottom wall 44. The flexible elements 36 are attached to the top wall 42 and the bottom wall 44, and are shown in a retracted state in FIG. 10A and an extended state in FIG. 10B. The device 10 is shown in a cross-sectional view, with the housing 32 having a top wall 42 and a bottom wall 44. The central core 38 is positioned between the top wall 42 and the bottom wall 44. The flexible elements 36 are attached to the top wall 42 and the bottom wall 44, and are shown in a retracted state in FIG. 10A and an extended state in FIG. 10B.
